

**Industrial Visit to ‘TATA Motors’ and ‘Auto Cluster’, Pune
Sunday, July 12, 2009**

In the recent years MCCIA is making intense efforts to promote Pune and Maharashtra as an attractive destination for Investments and as a Major Global Source for Quality Products and Services by focusing on the core competencies. The Pride of Pune are ‘TATA Motors’ & ‘Auto Cluster’. Considering the request of Member-Industries, MCCIA has organized industrial visit to TATA Motors and Auto Cluster to understand the general manufacturing and Quality Processes, which provides useful information about the Industry / Organization.

TATA Motors : Tata Motors Ltd. is India’s largest automobile company. The Pune plant manufactures Heavy Commercial Vehicles - Trucks Chassis, Buses, Medium Commercial Vehicles - Tata 407, 608, 709 Mini Buses, Light Commercial Vehicles - Tata Magic and ACE, Sport Utility Vehicle - Safari, and Passenger Car – Indica. Tata Motors is the leader in commercial vehicles in each segment, and among the top three in passenger vehicles with winning products in the compact, midsize car and utility vehicle segments. The company is the world’s fourth largest truck manufacturer, and the world’s second largest bus manufacturer.

Auto Cluster : Established by Ministry of Commerce and Industry, Govt. of India with active support of PCMC and MCCIA. Auto Cluster is the first of its kind in India. The primary objectives of the Auto Cluster are as follows : i) Promoting innovation and collective learning. ii) Creating suitable customized infrastructural support and service network. iii) Promoting product design and development through focused support and association with specific R&D institutions. iv) Assisting the units in setting up / developing common facilities like testing facilities, design centers, information hub etc. v) Assisting appropriate technology transfer, information sharing and quality improvement.

The Auto Cluster Training and Designing Centre has following facilities : i) Prototype Making Facility ii) Common Facility Centre iii) CAD/CAM/CAE Center (Simulation, 3D modeling) iv) CNC Machining Centre v) R&D Laboratory vi) Inspection / Validation and Certification.
