

Economic recovery robust, inflation still a worry

The Reserve Bank of India (RBI) today said India's economic recovery is "robust" even as it expressed concern over the prevailing high inflation caused by supply-side bottlenecks, which, it warned, could hamper sustainable growth. However, the near-normal monsoon this year will help in cooling down food inflation, RBI Deputy Governor Subir Gokarn said after releasing the apex bank's annual report for 2009-10 here.
