

Dear Sir / Madam,

We have been approached by AWEX – Mumbai about a business enquiry from Carlor, Belgium for distribution of

- Control panel for power generator such as Woodward , Deep Sea and Comap.
- Monitoring control or protection of industrial engines, such as Murphy
- Oil/diesel filtration systems, such as Parker and Donaldson

Carlor is a Belgian based company looking for a distributor in India, please find below the details about the company. We appreciate if you can circulate the same among your members. Carlor is the market leader in electric engine and drinking trough heaters. Carlor Engineering specialises in designing and manufacturing engine block heaters. It was established in 2000 and is based in Grivegnée, in the Belgian province of Liège.

Their electric preheating systems are suitable for use with all types of heat engines

- Generator sets
- Marine engines
- Lorries, buses, vans and private vehicles
- Construction and emergency vehicles

The use of an engine block heater is strongly recommended in the winter as it can help to create fuel savings of up to 15%.
